SUMMARY

My name is Agorua Chikaodi, a multifaceted full-stack developer and smart contract engineer with a strong foundation in web and mobile development. I am expanding my expertise into cybersecurity, focusing on its applications in blockchain development.

EXPERIENCE

ERNST & YOUNG

March 2025 - present)

TECHNOLOGY CONSULTANT (SOFTWARE ENGINEER)

- *Develop, enhance, and maintain web applications using Angular (TypeScript, HTML, CSS) for frontend development.*
- *Build robust backend services and APIs using C# (.NET Core/.NET Framework).*
- *Collaborate with UI/UX designers to create intuitive and responsive user interfaces.*
- *Implement best practices for code quality, security, and performance optimization.*
- *Engage in Agile methodologies such as Scrum, including sprint planning, daily stand-ups, and retrospectives.*
- *Contribute to proposal development, including technical documentation.*

LEXIS DEVELOPMENT LTD.

(October 2024 - February 2025)

Mobile App Developer

- *Designed and developed high-quality, cross-platform mobile applications using React Native for both iOS and Android.*
- *Translated business requirements into robust, user-centric mobile solutions while adhering to UI/UX best practices.*
- *Developed and maintained mobile app features, ensuring performance optimization, responsiveness, and scalability.*
- *Implemented RESTful APIs to connect mobile applications with backend services.*
- *Utilized version control tools such as Git for efficient code collaboration and management.*
- *Conducted thorough testing and debugging to ensure application stability and reliability across various devices and operating systems.*

AGORUA CHIKAODINAKA

SOFTWARE DEVELOPER

EXPERIENCE

PEAK HARMONY

(July 2024 - February 2025)

Smart Contract Developer

- Created smart contracts for Decentralized Applications (DApps) with expertise in solidity and Python.
- Initiated permissioned L1 blockchain using Hyperledger Besu.
- Utilized ERC-20 protocol for the creation of native currency.
- Created Private networks using QBFT.

ECOBANK NIGERIA

(July 2024 - November 2024)

SOFTWARE DEVELOPER

- Helped develop and deploy web applications (worked in the backend team and helped in integrating it with the frontend).
- Gathered and documented business requirements.
- Designed and implemented APIs.
- Created and presented project proposals.

EDUCATION

PAN ATLANTIC UNIVERSITY (2020 - 2024)

Bachelor of Science Computer Science

SKILLS

- Backend (C#(.NET), Java
- Good communication skill
- Microsoft Azure
- Node.js, NestJS)
- Able to work in a team
- Solidity, Hyperledger Besu
- DATABASE: SQL, MongoDB
- Great problem solving skill
- FrontEnd (React, React Native, Angular)
- React Native
